I do need to chat with you re another significant issue. Any chance you can spare a few mins today. I am sorry to be a constant pest

You're not. I just couldn't get hold of people. I'm with gov in mtgs til after lunch. Think I'll have more info. Do need to say that I'm pretty sure we can't get to people we need to hear from til mid-following week. We'll talk.

Every state has signed the historic preservation agreement except N.C. Once N.C. signs we get the go ahead from FERC to proceed
